Hibikino 1-1, Wakamatsu, Kitakyushu, Fukuoka, 808-0135, JAPAN

---

## Summary

Prof. Masaaki Nagahara received the bachelor's degree in engineering from Kobe University in 1998, and the master's degree and the Doctoral degree in informatics from Kyoto University in 2000 and 2003, respectively, under the supervision of Prof. Yutaka Yamamoto. He is currently a Professor with the Institute of Environmental Science and Technology, The University of Kitakyushu. He has been also a Visiting Professor with IIT Bombay since 2016.

He received two remarkable international awards: George S. Axelby Outstanding Paper Award in 2018 and Transition to Practice Award in 2012, from the IEEE Control Systems Society. Also, he received many awards from Japanese research societies such as SICE Young Authors Award in 1999, SICE Best Paper Award in 2012, SICE Best Book Authors Award in 2016, SICE Control Division Research Award (Kimura Award) in 2020, and the Best Tutorial Paper Award from the IEICE Communications Society in 2014.

His research interests include systems and control theory, machine learning, signal processing, and their applications to drones, autonomous vehicles, and energy management systems. He is author or co-author of more than 100 publications in top journals (e.g. IEEE Trans. on Automatic Control, IEEE Trans. on Signal Processing, Automatica, etc) and top conferences (e.g. IEEE CDC, IEEE ICASSP, IFAC WC, etc). He has given more than 40 Plenary/Invited/Tutorial lectures. He successfully conducted research teams as the principal investigator with funded grants mainly from Japanese government (MEXT). He has 5 granted patents by the USPTO for audio/image processing systems and power systems.

He is a senior member of the IEEE. He has been serving as AE for Conference Editorial Board, IEEE Control Systems Society (2013–), AE of SICE Journal of Control, Measurement, and System Integration (2015–), and AE of Asian Journal of Control (2019–), to name a few.

---

## Fields of Interest

Systems and control theory and applications, machine learning and control, signal processing, autonomous drones and vehicles, energy management systems

---

## Education

- March 2003: **PhD** (Informatics) Kyoto University, Japan

Thesis Title: Multirate digital signal processing via sampled-data  $H^\infty$  optimization

Advisor: Prof. Yutaka Yamamoto

- March 2000: **Master's Degree** (Informatics) Kyoto University, Japan
- March 1998: **Bachelor's Degree** (Engineering), Kobe University, Japan

## Current and Previous Academic Positions

- April 2016–present: **Professor**

Institute of Environmental Science and Technology, The University of Kitakyushu, Japan

- October 2016–present: **Visiting Professor**

Systems & Control Engineering (SysCon), Indian Institute of Technology (IIT) Bombay, India

- October 2012–March 2016: **Senior Lecturer**

Graduate School of Informatics, Kyoto University, Japan

- April 2007–October 2012: **Assistant Professor**

Graduate School of Informatics, Kyoto University, Japan

- April 2005–August 2012: **Adjunct Lecturer**

School of Engineering Science, Osaka University, Japan

- April 2003–March 2007: **Associate Researcher**

Graduate School of Informatics, Kyoto University, Japan

## Short-term Positions

- As a visiting researcher, I have visited **Indian Institute of Technology Bombay** (India), **Indian Institute of Technology Hyderabad** (India), **Indian Institute of Technology Kharagpur** (India), **Paderborn University** (Germany), **Technical University of Berlin** (Germany), **University of Newcastle** (Australia), **Aalborg University** (Denmark), and **Texas Tech University** (USA).

## Awards

- **George S. Axelby Outstanding Paper Award** in 2018 from the IEEE Control Systems Society for the following published paper:
  - M. Nagahara, D. E. Quevedo, and D. Nesic, Maximum Hands-off Control: A Paradigm of Control Effort Minimization, *IEEE Transactions on Automatic Control*, Vol. 61, No. 3, pp. 735–747, 2016.

This is an international award, which is annually presented to the best paper (in the two recent years) in the leading journal *IEEE Transactions on Automatic Control*.

- **Transition to Practice Award** in 2012 from the IEEE Control Systems Society for the introduction and development of the sound-processing technology incorporated in a large number of LSI chips by SANYO Semiconductor. This is an international award, which is annually presented to a distinguished contributor to the transition of control and systems theory to practical, industrial, or commercial systems.
- **Hidenori Kimura Award** in 2020 from SICE Control Division Research Award for the published paper
  - M. Nagahara, D. E. Quevedo, and D. Nesic, Maximum Hands-off Control: A Paradigm of Control Effort Minimization, *IEEE Transactions on Automatic Control*, Vol. 61, No. 3, pp. 735–747, 2016.

This is a Japanese national award, which is annually presented to the most outstanding research paper in the field of control systems.

- **Best Book Authors Award** in 2016 from the SICE for the published book
  - S. Azuma, M. Nagahara, H. Ishii, N. Hayashi, K. Sakurama, and T. Hatanaka, *Control of Multi-agent Systems*, Corona Publishing, 2015.
- **Best Tutorial Paper Award** in 2014 from the IEICE Communications Society for the quality of the following tutorial paper:
  - K. Hayashi, M. Nagahara, and T. Tanaka, A User's Guide to Compressed Sensing for Communications Systems, *IEICE Trans. on Communications*, Vol. E96-B, No. 3, pp. 685-712, Mar. 2013.

This award is annually presented to the best-quality tutorial paper published in the journal.

- **Best Paper Award** in 2012 from the SICE for the quality of a research paper, " $H^\infty$  design of periodically nonuniform interpolation and decimation for non-band-limited signals," published in SICE Journal of Control, Measurement, and System Integration. This award is annually presented to high-quality papers published in the journal.
- **Senior member of IEEE** in 2014 presented by the IEEE. Senior member is the highest grade for which IEEE members can apply.
- **Outstanding Reviewer** in 2015 from Automatica, A Journal of IFAC, for outstanding performance as individual has shown as a reviewer, during the period of 2013–2014.
- **Young Authors Award** in 1999 from SICE. This award is to recognize outstanding young individuals who submit high quality paper in the activities of SICE (symposium, lecture meeting, etc.).

## Collaborators from Outside Japan

- **Australia:** Prof. Daniel E. Quevedo (Queensland University of Technology), Prof. Dragan Nešić (The University of Melbourne), Prof. Brian D. O. Anderson (Australian National University)
- **India:** Prof. Dabasish Chatterjee (Indian Institute of Technology Bombay), Prof. Srikant Sukumar (Indian Institute of Technology Bombay), Prof. D. Manjunath (Indian Institute of Technology Bombay), Prof. Mathukumalli Vidyasagar (Indian Institute of Technology Hyderabad)
- **United States:** Prof. Pramod P. Khargonekar (University of California Irvine), Prof. Clyde F. Martin (Texas Tech University),
- **Europe:** Prof. Moritz Schulze Darup (University of Paderborn, Germany), Prof. Jan Østergaard (Aalborg University, Denmark)

## Collaboration with Industry

- **Toyota**, topic: engine control (2017–2018)
- **Kitayushu Power**, topic: energy management (2017)
- **Fujitsu Laboratories**, Japan, topic: machine learning (2016–2018)
- **Panasonic**, topic: power systems (2008–2016)

## Publications

### Books (written in English)

1. **M. Nagahara**, *Sparsity Methods for Systems and Control*, Now Publishers, 2020.  
<https://www.nowpublishers.com/Article/BookDetails/9781680837247>

### Books (written in Japanese)

1. **M. Nagahara**, K. Okano, M. Ogura, and M. Wakaiki, *Networked Control*, Corona Publishing, 2019. ISBN 978-4-339-03227-7
2. M. Kawata, S. Azuma, H. Ichikawa, T. Urakubo, T. Ohtsuka, T. Kai, S. Kunimatsu, K. Sawada, **M. Nagahara**, and H. Minami, *Control Engineering Learned with Inverted Pendulums*, Morikita Publishing, 2017. ISBN 978-4627792210
3. **M. Nagahara**, *Sparse Modeling*, Corona Publishing, 2016. ISBN 978-4-339-03222-2
4. S. Azuma, **M. Nagahara**, H. Ishii, N. Hayashi, K. Sakurama, and T. Hatanaka, *Control of Multi-agent Systems*, Corona Publishing, 2015. ISBN 978-4-339-03322-9

### Book Chapters

1. **M. Nagahara** and Y. Yamamoto, Sparse Representation for Sampled-data  $H^\infty$  Filters, *Athanasios Antoulas 70th Festschrift*, Springer, 2020. (to be published)
2. Y. Yamamoto and **M. Nagahara**, Digital Control, *Wiley Encyclopedia of Electrical and Electronics Engineering*, J. G. Webster (Ed.), Wiley, Feb. 2018. Online ISBN: 9780471346081
3. K. Yamamoto, Y. Yamamoto, and **M. Nagahara**, Hypertracking Beyond the Nyquist Frequency, *Emerging Applications of Control and Systems Theory*, A Festschrift in Honor of M. Vidyasagar, pp. 369-379, Springer, 2018. ISBN 978-3-319-67068-3
4. **M. Nagahara**, K. Hamaguchi, and Y. Yamamoto, Active noise control with sampled-data filtered-x adaptive algorithm, *Mathematical System Theory*, A Festschrift in Honor of Uwe Helmke on the Occasion of his Sixtieth Birthday, pp. 275-290, CreateSpace, 2013. ISBN 978-1470044008
5. **M. Nagahara**, Min-max design of FIR digital filters by semidefinite programming, *Applications of Digital Signal Processing*, pp. 193-210, InTech, Nov. 2011. ISBN 978-953-307-406-1
6. **M. Nagahara**, YY filter — a paradigm of digital signal processing, *Perspectives in Mathematical System Theory, Control, and Signal Processing*, pp. 331-340, Springer, 2010. ISBN 978-3-540-93917-7
7. **M. Nagahara**, Sound source separation, Audio signal compression, Synthesizer, Digital signal processing, *Encyclopedia of Sound*, Maruzen, 2006. (in Japanese) ISBN 978-4621076606
8. Y. Yamamoto and **M. Nagahara**, Digital filter design via sampled-data control theory, *Control and Modeling of Complex Systems: Cybernetics in the 21st Century*, pp. 31-43, Birkhauser, Dec. 2002. ISBN 978-1-4612-0023-9

### Journal Articles

1. T. Ikeda and **M. Nagahara**, Maximum hands-off control with time-space sparsity, *IEEE Control Systems Letters*, Vol. 5, No. 4, Oct. 2021 (to be published)

## Plenary/Invited/Tutorial Lectures

1. **Workshop Lecture** in IEEE CDC 2020, 13/December/2020.
2. **Workshop Lecture** in ICCAS 2020, 13/October/2020.
3. **Invited Session Speaker** in ICCAS 2020, 13-16/October/2020.
4. **Invited Speaker** in IEICE Society Conference, 15-18/September/2020.
5. **Tutorial Lecture** in SICE Tutorial Seminar, 17/July/2020.
6. **Invited Speaker** in the 1st SICE Workshop on Post-Corona Future Society, 6/June/2020.
7. **Invited Speaker** in 2019 SICE Symposium on Industrial Applications, Tokyo, Japan, 31/October/2019.
8. **Invited Lecture** at Tokyo Denki University, Tokyo, Japan, 29/October/2019.
9. **Invited Lecture** Nara Institute of Science and Technology (NAIST), Nara, Japan, 8/October/2016.
10. **Tutorial Lecture** in 2019 IEEE Conference on Control Technology and Applications (CCTA), Hong Kong, 21/August/2019.
11. **Invited Lecture** at Tokyo Denki University, Tokyo, Japan, 26/June/2019.
12. **Invited Lecture** at University of Paderborn, Germany, 27/February/2019.
13. **Invited Lecture** at Technische Universität Berlin, Germany, 13/February/2019.

14. **Invited Speaker** in Workshop on "Current trends and Future directions in Control", IIT Bombay Diamond Jubilee Workshop, India, 16/January/2019.
15. **Invited Lecture** at Fujitsu Laboratories, Kawasaki, Japan, 12/June/2018.
16. **Plenary Lecture** in Symposium on Measurement, Control, and Systems Engineering, The Iron and Steel Institute of Japan, Hitachi, Japan, 16/November/2017.
17. **Plenary Speaker** in Design Gaia, IEICE Technical Committee on VLSI, Kumamoto, Japan, 7/November/2017.
18. **Plenary Speaker** in Modeling Decisions for Artificial Intelligence (MDAI2017), Kitakyushu, Japan, October 2017.
19. **Tutorial Lecture** in SICE Annual Conference 2017, Kanazawa, Japan, 19/October/2017.
20. **Invited Lecture** at Nagoya University, Nagoya, Japan, 31/May/2017.
21. **Invited Lecture** at Osaka University, Osaka, Japan, 1/May/2017.
22. **Tutorial Lecture** in SICE Control Division Multi Symposium, Okayama, Japan, 6/March/2017.
23. **Invited Lecture** at Indian Institute of Technology Bombay, India, 15/February/2017, 1/March/2017.
24. **Invited Speaker** in Control Forum, The Iron and Steel Institute of Japan, Amagasaki, Japan, 23/January/2017.
25. **Invited Speaker** at Higashi-Fuji Technical Center, Toyota Motor Corporation, Higashi-Fuji, Japan, 25/November/2016.
26. **Tutorial Lecture** in IEICE Technical Committee on Reliable Communication and Control (RCC), Kyoto, 21/November/2016.
27. **Invited Lecture** at Nara Institute of Science and Technology (NAIST), Nara, Japan, 7/November/2016.
28. **Plenary Lecture** in 48th ISCIE International Symposium on Stochastic Systems Theory and Its Applications (SSS), Fukuoka, Japan, 4/November/2016.
29. **Tutorial Lecture** in SICE Seminar on Control of Multi-agent Systems, Tokyo, Japan, 29-30/September/2016.
30. **Invited Lecture** at Osaka University, 29/August/2016.
31. **Invited Speaker** in RACOT (Recent Advances in Control Theory), Fukuoka, Japan, 25/June/2016.
32. **Tutorial Lecture** in Annual Conference of the Institute of Systems, Control and Information Engineers (SCI'16), Kyoto, Japan, 26/May/2016.
33. **Invited Lecture** at Indian Institute of Technology Bombay, India, 20/May/2016.
34. **Tutorial Lecture** in SICE Multi-Symposium on Control Systems, Nagoya, Japan, 10/March/2016.
35. **Invited Speaker** in IEICE Technical Committee on Signal Processing, Osaka, Japan, 18/January/2016.
36. **Tutorial Lecture** in Japan Joint Automatic Control Conference, Kobe, Japan, 14/November/2015.
37. **Invited Lecture** at Osaka Electro-Communication University, Osaka, Japan, 26/October/2015.
38. **Invited Lecture** at Hiroshima University, Hiroshima, Japan, 9/October/2015.

39. **Tutorial Lecture** in SICE Technical Committee on Control and Signal Processing over Networks, Kyoto, Japan, 29/September/2015.
40. **Invited Lecture** at Aalborg University, Denmark, 24/September/2015.
41. **Tutorial Lecture** in IEICE Society Conference 2015, Sendai, Japan, 9/September/2015.
42. **Invited Speaker** in IEICE SmartCom2014, Singapore, 31/October/2014.
43. **Tutorial Lecture** in 21st International Symposium on Mathematical Theory of Networks and Systems (MTNS2014), Groningen, The Netherlands, 8/July/2014.
44. **Invited Speaker** in Joint IEEE CSS-Graduate School of Informatics, Kyoto U. Workshop on Systems and Control, Kyoto, Japan, 9/May/2013.
45. **Invited Speaker** in Technical Committee on Reliable Robust Radio (RRR), Nagoya, Japan, 3/August/2012.
46. **Invited Lecture** at Niigata University, Niigata, Japan, 25/November/2011.
47. **Invited Panelist** in IEICE Society Conference 2011, Sapporo, Japan, 15/September/2011.
48. **Tutorial Lecture** in IEICE Society Conference 2011, Sapporo, Japan, 13/September/2011.
49. **Invited Panelist** in IEICE Technical Committee on Reliable Communication and Control (RCC), 28/July/2010.
50. **Invited Speaker**, YYFest 2010, Symposium on Systems, Control, and Signal Processing in Honor of Yutaka Yamamoto on the Occasion of his 60's Birthday, Kyoto, Japan, 29/March/2010.
51. **Invited Panelist** in IEICE Society Conference 2009, Niigata, Japan, 18/September/2009.

## Externally Funded Research Grants

1. April 2020–March 2022: **Principal Investigator**, *Analysis of Bounding Flight in Birds by Dynamical Sparse Modeling and Its Application to Drones*, MEXT Grant-in-Aid for Challenging Research (Exploratory), Japan (2 years, JPY5,000,000)
2. April 2020–March 2023: **Principal Investigator**, *Machine Learning Under Differential Equations*, MEXT Grant-in-Aid for Scientific Research (B), Japan (3 years, JPY13,600,000)
3. April 2019–March 2022: **Co-investigator**, *Construction and Verification of Optimal Operation and Control of Soil-Heat Exchange Systems by Deep Reinforcement Learning*, MEXT Grant-in-Aid for Scientific Research (B), Japan (3 years, JPY17,420,000, PI: Prof. Yasuyuki Shiraishi)
4. April 2017–March 2019: **Principal Investigator**, *Dynamical Sparse Modeling by Optimal Control Theory and Statistical Learning* MEXT Fund for the Promotion of Joint International Research (Fostering Joint International Research), Japan (2years, JPY13,520,000)
5. April 2016–March 2018]: **Principal Investigator**, *Dynamical Sparse Modeling and Its Applications to Bio-Mechanics*, MEXT Grant-in-Aid for Scientific Research on Innovative Areas (Research in a proposed research area), Japan (2 years, JPY4,810,000)
6. April 2015–March 2017: **Principal Investigator**, *Design of Super-distributed Control Systems for Unreliable Multi-agents and Its Application to Disaster Area Survey*, MEXT Grant-in-Aid for Challenging Exploratory Research, Japan (2 years, JPY3,900,000)

7. April 2015–March 2019: **Principal Investigator**, *Sparse Optimal Control Theory for Green Technology*, MEXT Grant-in-Aid for Scientific Research (B), Japan (4 years, JPY16,900,000)
8. April 2014–March 2016: **Principal Investigator**, *Sparse Modelling for Biomechanics by Sparse Optimal Control Theory*, MEXT Grant-in-Aid for Scientific Research on Innovative Areas (Research in a proposed research area), Japan (2 years, JPY4,550,000)
9. April 2014–March 2018: **Research Collaborator**, *Communication Protocol Design for Wireless Control Systems*, MEXT Grant-in-Aid for Young Scientists (B), Japan (4 years, JPY4,030,000, PI: Prof. Megumi Kaneko)
10. March 2014–March 2015: **Principal Investigator**, *Low-power and Reliable Communications for Radio Control based on Sparse Optimisation*, Okawa Foundation for Information and Telecommunications, Research Grant, Japan (1 year, JPY1,000,000)
11. April 2013–May 2014: **Principal Investigator**, *Phonetic Analysis and Learning System Design for Utai of Noh Music*, KAWAI Foundation for Sound Technology & Music, Research Grant, Japan (1 year, JPY500,000)
12. April 2012–March 2015: **Co-Investigator**, *System Theory for Mon-stationary Signals via Sampled-Data Control Theory and Its Applications*, MEXT Grant-in-Aid for Scientific Research (B), Japan (3 years, JPY18,590,000, PI: Prof. Yutaka Yamamoto)
13. April 2012–March 2015: **Principal Investigator**, *Reliable Communications for Networked Control Systems Based on Sparse Representation*, MEXT Grant-in-Aid for Scientific Research (C), Japan (3 years, JPY5,590,000)
14. April 2010–March 2012: **Principal Investigator**, *Optimal Discretization of Infinite-dimensional Controllers based on Sampled-data Control Theory*, MEXT Grants-in-Aid for Young Scientist (B), Japan (2 years, JPY3,770,000)
15. April 2010–March 2013: **Co-Investigator**, *Study of Numerical Analysis via Control Theory*, MEXT Grant-in-Aid for Challenging Exploratory Research, Japan (3 years, JPY3,640,000, PI: Prof. Yutaka Yamamoto)
16. April 2009–March 2012: **Co-Investigator**, *Hybrid Signal Processing via Sampled-data Control Theory*, MEXT Grant-in-Aid for Scientific Research (B), Japan (3 years, JPY17,940,000, PI: Prof. Yutaka Yamamoto)
17. April 2006–March 2009: **Co-Investigator**, *New methodology in Signal Processing via Sampled-data Control Theory and Its Development in New Non-stationary System Theory*, MEXT Grant-in-Aid for Scientific Research (B), Japan (3 years, JPY17,280,000, PI: Prof. Yutaka Yamamoto)
18. April 2005–March 2008: **Co-Investigator**, *Research on Finite Dimensional Conditions for Control of Distributed Parameter Systems*, MEXT Grant-in-Aid for Exploratory Research, Japan (3 years, JPY3,300,000, PI: Prof. Yutaka Yamamoto)
19. April 2004–March 2007: **Principal Investigator**, *Novel Multimedia Signal Processing with Analog Performance*, MEXT Grants-in-Aid for Young Scientist (B), Japan (3 years, JPY3,500,000)
20. April 2003–March 2016: **Co-Investigator**, *General Theory of Digital Signal Processing via-Sampled Data Control Theory and Its Applications*, Japan (3 years, JPY13,400,000, PI: Prof. Yutaka Yamamoto)
21. April 2002–March 2003: **Principal Investigator**, *Digital Signal Processing with Analog Performance based on Sampled-data Control Theory*, JSPS Research fellow (DC2), Japan (1 year, JPY1,000,000)

22. April 2002–March 2005: **Co-Investigator**, *System Theory for Numerical Analysis*, MEXT Grant-in-Aid for Exploratory Research, Japan (3 years, JPY3,100,000)

## Patents (USA)

### Granted Patents

1. Method and system for power system stabilization using prediction confidence based on high-frequency components of power command value, Patent number: 9780562, Type: Grant, Filed: October 8, 2015, Date of Patent: October 3, 2017, Assignee: Panasonic Corporation, Inventors: Kenichi Watanabe, Seiya Miyazaki, Takahiro Kudoh, Yutaka Yamamoto, **Masaaki Nagahara**, Gou Nishida.
2. Method for designing power controller, power controller, and power control device, Patent number: 9407162, Type: Grant, Filed: April 1, 2013, Date of Patent: August 2, 2016, Assignee: Panasonic Corporation, Inventors: Takahiro Kudoh, Tatsuto Kinjo, Seiya Miyazaki, Yutaka Yamamoto, **Masaaki Nagahara**, Naoki Hayashi.
3. Method for designing a control apparatus and control apparatus, Patent number: 9158300, Type: Grant, Filed: May 28, 2012, Date of Patent: October 13, 2015, Assignee: Panasonic Corporation, Inventors: Seiya Miyazaki, Takahiro Kudoh, Yutaka Yamamoto, **Masaaki Nagahara**.
4. Method and apparatus for removing image noise, Patent number: 8611680, Type: Grant, Filed: November 11, 2008, Date of Patent: December 17, 2013, Assignee: Kyoto University, Inventors: Yutaka Yamamoto, **Masaaki Nagahara**, Akira Kobayashi.
5. Method for designing audio signal processing system for hearing aid, audio signal processing system for hearing aid, and hearing aid, Patent number: 8488823, Type: Grant, Filed: August 3, 2009, Date of Patent: July 16, 2013, Assignee: Kyoto University, Inventors: Yutaka Yamamoto, **Masaaki Nagahara**.

### Published Applications

1. Power system stabilization method, power system stabilization system, and power supply device, Publication number: 20160028234, Type: Application, Filed: October 8, 2015, Publication date: January 28, 2016, Inventors: Kenichi Watanabe, Seiya Miyazaki, Takahiro Kudoh, Yutaka Yamamoto, **Masaaki Nagahara**, Gou Nishida.
2. Method for designing power controller, power controller, and power control device, Publication number: 20150131346, Type: Application, Filed: April 1, 2013, Publication date: May 14, 2015, Applicant: Panasonic Corporation, Inventors: Takahiro Kudoh, Tatsuto Kinjo, Seiya Miyazaki, Yutaka Yamamoto, **Masaaki Nagahara**, Naoki Hayashi.
3. Method for designing a control apparatus and control apparatus, Publication number: 20130150993, Type: Application, Filed: May 28, 2012, Publication date: June 13, 2013, Inventors: Seiya Miyazaki, Takahiro Kudoh, Yutaka Yamamoto, **Masaaki Nagahara**.
4. Method and apparatus for removing image noise, Publication number: 20110002552, Type: Application, Filed: November 26, 2008, Publication date: January 6, 2011, Applicant: Kyoto University, Inventors: Yutaka Yamamoto, **Masaaki Nagahara**, Akira Kobayashi.

## Professional Activities and Service

- **2020–present:** Interactive Session Chair, IFAC World Congress 2023
- **2020–present:** Member, Conference Activities Task Force, SICE
- **2020–present:** Chair, SICE Working Group for Post Corona Future Society in Japan, SICE
- **2020–present:** Guest Editor, Special Issue on 7th Multi Symposium on Control Systems (MSCS2020), *SICE Transactions*
- **2020–present:** International Program Committee Member, 7th Indian Control Conference 2020 (ICC-7), India
- **2020–present:** Program Committee Member, Joint Symposium DARS/SWARM2020, Kyoto, Japan
- **2019–present:** Associate Editor of *Asian Journal of Control*
- **2019–present:** Advisor, AI Technical Committee, Association of Instrumentation Engineers, Japan
- **2018–present:** Member of IEEE CSS Technical Committees on Networks and Communications
- **2017–present:** Division Secretary of SICE Kyushu Branch
- **2016–present:** Member of Hibikino Research Group for Social Embedding of AI Technologies (HiSEAT), Japan
- **2015–present:** Associate Editor of *SICE Journal of Control, Measurement, and System Integration* (JCMSI)
- **2014–present:** Member of IFAC Technical Committee 2.1 Control Design
- **2014–present:** Affiliate Member of IEEE Signal Processing Society, Signal Processing Theory and Methods (SPTM) Technical Committee
- **2013–present:** Associate Editor for *Conference Editorial Board, IEEE Control Systems Society*
- **2019–2020:** Program Co-Chair, 7th SICE Multi-symposium on Control Systems, Japan
- **2019:** International Program Committee Member, 6th Indian Control Conference 2019 (ICC-6)
- **2018–2019:** Program Committee Member, 3rd International Symposium on Swarm Behavior and Bio-Inspired Robotics (SWARM2019)
- **2018–2019:** Committee Chair of SICE Research Committee on Systems and Control for Society 5.0
- **2018–2019:** Committee Vice Chair of SICE Research Committee on Event-triggered Control for IoT
- **2018–2019:** Local Committee Member, 12th Asian Control Conference (ASCC2019)
- **2018–2019:** International Program Committee Member, 5th Indian Control Conference 2019 (ICC-5)
- **2016–2020:** Member of Research Group of Energy Management, Kitakyushu Foundation for the Advancement of Industry, Science and Technology, Japan
- **2016–2017:** Program Committee Member, 2nd International Symposium on Swarm Behavior and Bio-Inspired Robotics (SWARM2017)
- **2015–2016:** Secretary of IEEE Signal Processing Society (SPS) Kansai Chapter

- **2015–2016:** General Affairs Chair of SICE Kansai Chapter
- **2015–2016:** Committee Chair of SICE Research Committee on Control and Signal Processing on Networks
- **2015–2016:** Local Committee Member, 54th IEEE Conference on Decision and Control (CDC2015)
- **2014–2020:** Member of Technical Committee on Reliable Communication and Control (RCC), IEICE, Japan
- **2014–2015:** Program Committee Member, 1st International Symposium on Swarm Behavior and Bio-Inspired Robotics (SWARM2015)
- **2014–2015:** Local Committee Member, ISCIE Annual Conference of the Institute of Systems, Control and Information Engineers (SCI'15)
- **2014–2015:** Guest Associate Editor, Special Section on Signal Processing for Sensing and Diagnosis, IEICE Trans. Fundamentals
- **2013–2014:** Local Committee Member, ISCIE Annual Conference of the Institute of Systems, Control and Information Engineers (SCI'14)
- **2013–2014:** Local Committee Member, 29th IEICE Signal Processing Symposium (SIP2014)
- **2013:** Program Committee Member, 6th International Congress on Image and Signal Processing (CISP 2013) and the 6th International Conference on BioMedical Engineering and Informatics (BMEI 2013)
- **2013:** Organizing Committee Member, 28th IEICE Signal Processing Symposium (SIP2013)
- **2013:** Program Committee Member, 56th Japan Joint Automatic Control Conference
- **2012–2013:** Member of SICE Research Committee on Distributed Decision Making for Large Scale Social Systems
- **2012:** Organizing Committee Member, 27th IEICE Signal Processing Symposium (SIP2012)
- **2012:** Organizing Committee Member, 55th Japan Joint Automatic Control Conference
- **2012:** Program Committee Member, 5th International Congress on Image and Signal Processing (CISP 2012)
- **2011–2017:** Member of Technical Committee on Signal Processing (SIP), IEICE, Japan
- **2011:** Organizing Committee Member, 26th IEICE Signal Processing Symposium (SIP2011)
- **2011:** Program Committee Member, 54th Japan Joint Automatic Control Conference
- **2010–2014:** Member of Technical Committee on Reliable Robust Radio Control Technology (RRRC), IEICE, Japan
- **2010:** International Program Committee Member, International Symposium on Mathematical Theory of Networks and Systems (MTNS 2010)
- **2009–2013:** Member of Editorial Board of Systems, Control and Information, ISCIE, Japan
- **2009–2010:** Local Committee Member, YY Fest 2010
- **2009:** Program Committee Member, CACS International Automatic Control Conference (IACC2009)

- **2004–2006:** Member of Editorial Board of Systems, Control and Information, ISCIE, Japan
- **2004–2006:** Local Committee Member, International Symposium on Mathematical Theory of Networks and Systems (MTNS 2006)

## Courses Taught

- **2020–present:** Introduction to Data Analysis (The University of Kitakyushu, undergraduate level)
- **2020–present:** Computer Systems (The University of Kitakyushu, undergraduate level)
- **2019–present:** Information Mathematics (The University of Kitakyushu, undergraduate level)
- **2019–present:** Experiments in Information System Engineering III (The University of Kitakyushu, undergraduate level)
- **2019–present:** Sparse Modeling (The University of Kitakyushu, graduate level)
- **2019–present:** Introduction to Environmental Technology (The University of Kitakyushu, undergraduate level)
- **2018:** Sparsity methods for systems and control (Indian Institute of Technology Bombay, graduate level)
- **2017–2018:** Applied Control Engineering (The University of Kitakyushu, graduate level)
- **2016–2018:** Experiments in Information and Media Engineering III (The University of Kitakyushu, undergraduate level)
- **2016–present:** Exercises in Programming II (The University of Kitakyushu, undergraduate level)
- **2016–2018:** Exercises in Data Structures and Algorithms (The University of Kitakyushu, undergraduate level)
- **2016–2019:** Image Processing (The University of Kitakyushu, graduate level)
- **2016–2018:** Discrete Mathematics (The University of Kitakyushu, undergraduate level)
- **2012–2016:** Topics in Control Theory (Kyoto University, graduate level)
- **2012–2016:** Mathematical Description of Natural Phenomena (Kyoto University, undergraduate level)
- **2009–2016:** Modern Control Theory (Kyoto University, undergraduate level)
- **2006–2016:** Complex Systems Synthesis (Kyoto University, graduate level)
- **2013:** Seminar on Data Analysis of Sound (Kyoto University, undergraduate level)
- **2013:** System Analysis Laboratory (Kyoto University, undergraduate level)
- **2013:** Linear Control Theory (Kyoto University, undergraduate level)
- **2005–2012:** Numerical Analysis (Osaka University, undergraduate level)
- **2002–2012:** Experiments in Applied Mathematics and Physics (Kyoto University, undergraduate level)

- **2004–2016:** Seminar on Applied Mathematics and Physics (Kyoto University, undergraduate level)
- **2007:** Experiments in Physics (Kyoto University, undergraduate level)
- **2005:** Numerical Computation Seminar (Kyoto University, undergraduate level)
